Company Overview

About Us

Touch Business Solutions is a leading IT solutions company specializing in open-source technology in the Kingdom. Numerous studies and research in recent years have shown that the majority of companies, both in the private and public sectors, face IT-related challenges. These challenges include high costs of acquiring efficient and flexible solutions, as well as difficulties in developing and maintaining systems from scratch.

After thorough analysis and evaluation of available alternatives, our team concluded that the most practical and cost-effective solution lies in adopting open-source technology. In 2011, Touch Business Solutions began offering a wide range of services and solutions built on open-source technology. These solutions cater to various tasks and industries while allowing integration with other technologies. We provide implementation, customization, and enhancement services to better meet the needs of our clients.

At Touch Business Solutions, we embrace effective, user-friendly, and tailored solutions that align with the requirements of local companies in the Kingdom. We are pioneers in developing open-source technologies and strive to elevate together with our partners in a broader technological landscape.
